

Setting up iPhone or iPad

The setup process for both of these devices is identical, the screen shots below are from an iPhone.

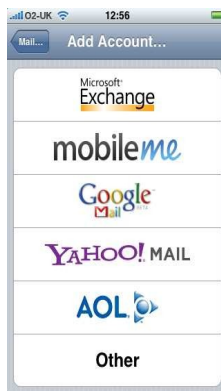

Step 1:
Press settings

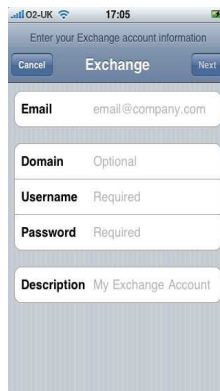

Step 2:
Press Mail, Contacts, Calendars

Step 3:
Press Add Account

Step 4:
Choose Exchange

Step 5:
Enter settings

Step 6:
Decide the data types you
want to synchronise

E-mail = your full address
Domain = leave this blank
Username = your full e-mail address
Password = your mailbox password
Description = anything you like

Press Next, then when prompted
enter the server name as

exchange.simply.ms
